## SUPPLIES

Fabric: 40 Count (16 Threads/CM) White Linen Fabric ; Iron-on thermo-adhesive interfacing

## STITCHING INSTRUCTIONS:

Start stitching at the center of the piece of fabric you cut.  
Follow cross-stitch chart instructions: colors and measures.  
The design was stitched using two strands of floss over two threads.

## FINISHING

Cut the stitched bookmark leaving 3 cm excess fabric on each side and at the bottom side; leave only 1 cm at the top side to line the bookmark once you have finished it.

Press face down.

Iron thermo-adhesive interfacing on the back of your bookmark to make it stiff.

Fold the extra linen on each side of the bookmark, fold the two bottom edges to the back of the bookmark to create a pointed edge.

Use white thread and slip stitch to finish the two edges of the bookmark.

To back your stitched and finished bookmark, place a piece of ribbon or of matching fabric of your choice on the thermo-adhesive interfacing and press with iron set at medium.

## WASHING INSTRUCTIONS

All our threads are produced in accordance with Oeko-Tex standards. PH values are tested and all our colour dye lots adhere to Global fastness standards. However, it is important to follow our thread washing instructions. Particularly with dark colors, excess dye can remain on the thread. To minimise any potential bleeding of excess dyestuff it is important to wash the products in THE HOTTEST TEMPERATURE possible, in accordance with the specifications of the fabrics, and use a large amount of water. Please make sure that you also follow the fabric washing instructions where appropriate. As a precaution, you can also use decolorating sheets that you can find in any supermarket.
